

Australian Milking Merino®

Keri – Keri Sire R2445 (4T)

Date of Birth : Jul 2002

Semen Price : AUD\$40.00
(per dose)

Export semen
available : Now

Keri-Keri sire R2445 4T has produced outstanding progeny with the highest percentage of ram weaners to be classed into the top category (i.e. joined at 6 months of age), and the minimal amount of culls. Progeny are showing his characteristics of long, white, soft wools coupled with good growth rates.

His semen has been used throughout Australia and more recently the Falkland Islands, he is another Keri-Keri sire to carry the 4 teater gene.

Again this year he was joined to the top stud maiden ewes.

Test Date	Micron	S.D.	C.V.	C.F.
Aug 2003	20.4	4.3	21.1	99.3
Apr 2006	20.5	3.8	18.6	99.3

** 4T indicates 4 Teater ram **
